

MRS. AMER ROBBED OF MUCH WEALTH

FIFTEEN HUNDRED DOLLARS TAKEN FROM TRUNK.

Says That She Drew Money From Bank to Buy a Home With—Stolen Wealth Was in Greenbacks and Gold—Thieves Left Some Behind—Arrests May Follow.

Mrs. Armissa Amer, of 61 South Franklin street, has notified Chief of Police Hogan that she has been robbed of \$1,546 in cash. The money, she claims, was taken from an old trunk in one of the bedrooms in her house. In the trunk was \$1,500 in cash, but the guilty parties left behind \$254, which was in plain sight, and which no doubt they left intentionally.

There are five members in Mrs. Amer's family, and she says that she has a pretty good idea who took the money, but that no questions will be asked if the guilty parties return it at once. Mrs. Amer has for years resided at her present home, and is known by many as the woman who keeps a highly prized parrot that makes its home each summer in the trees in her yard. Mrs. Amer is eighty-two years of age, and is well informed on all topics of the day for one of her advanced years. She stated today that for several years past she has been saving what little money she could get hold of for the purpose of buying her a home. After many years of saving she managed to get together \$1,500, which she stored away in one of the local banks. Several weeks ago she thought the money was much safer stored away in her own home, and to the bank she went one morning and drew it out.

Distressed the Bank. After taking the money home she carefully wrapped the gold in paper and tied the bills together, placing the whole amount in the bottom of an old trunk that stood in one of the back bedrooms on the first floor. This trunk was under lock and key, and only Mrs. Amer had access to it. Members of her household are said to have known that she had the money in the house, and they advised that she put it in a more secure place. On going to the trunk recently Mrs. Amer says she was horrorstruck to find that someone had been there and disturbed her fortune, taking the greater portion of it.

THE POLICE LOOKING INTO IT

The matter was reported to Chief Hogan and he at once made a careful search of the trunk, finding that \$254 had been left behind. This money was in plain sight, and no doubt was left intentionally. Mrs. Amer never fully recovered from the fright the theft gave her, and of late she has been under the care of Dr. James Mills.

The event proved to be a most enjoyable one. The first of a series of parties to be given by the N. O. W. club, took place last evening at the East Side Odd Fellows' hall. There was a good attendance, and a delightful evening was spent. Smith's orchestra furnished the music. A "ward social" was held at the parlors of the Baptist church last evening. SPAIN REFUSES TO ACCEPT TERMS

FINAL DECLARES SHE WILL NOT YIELD PHILIPPINES.

Answers Was Handed to the Peace Commission Today—Belief At Washington That She Will Finally Surrender—Admiral Schley Given Leave of Absence.

Washington, Nov. 16.—[Special]—There is alarm and very little solicitude in official circles here over the threats of Spain to break off negotiations at this time because of the alleged excessive demands of the United States. It is held that no nation under like conditions can ask less than the United States has done, and although the Spaniards make considerable blustering they will finally accept the inevitable and take the best terms they can get. The Spanish treasury is greatly in need of money, and the sum it will receive for the Philippines—probably three to four million dollars—will help the nation out of the financial slough into which it has fallen.

SUBMIT THEIR ARGUMENT

Spain's Argument For Retaining the Philippines Is Presented. Paris, Nov. 16.—[Special]—The meeting today of the Spanish-American peace commissioners lasted forty-five minutes. The Spanish commissioners presented a long document in answer to the American argument submitted last week. Grand Trunk Men May Strike. Montreal, Que., Nov. 16.—It looks very much as if a general strike on the Canadian end of the Grand Trunk railway system was imminent. The grievances of the men are many. In the first place, they claim that their pay is entirely too small and that the hours of work are entirely too long. The men who feel particularly hurt are the telegraphers and station agents along the line. The general run of employees also object to the importation of Americans in positions which others in Canada could fill just as well. The company has taken the matter under advisement and promised to look into the demands.

DISPLAY WAS A DISAPPOINTMENT

METEORIC SHOWERS WERE INVISIBLE.

Clouds Obscured the Heavens At the Time Appointed For Their Occurrence—A Few Vagrant Orbs Were Seen Floating Through Space Furtively.

Beloit, Nov. 16.—Here as well as at other points throughout the country there was disappointment among students of the heavens at the failure of the annual meteoric counts on Saturday, Sunday and Monday. Absolutely nothing could be seen of this display in or around this vicinity on Saturday or Sunday morning on account of the clouds. Two meteors were seen on Monday morning at about 1:30 o'clock through a gap in the clouds, and on Tuesday morning about five meteors were counted at the rate of about one per minute, moving in a general direction towards the northwest. Prof. Bacon, professor in astronomy, says that on Tuesday morning shortly before 5 o'clock, one brilliant meteor became visible, first near the zenith, which lighted up the whole heavens and left a luminous trail visible for about twenty-five seconds. "It is probable," said Mr. Bacon, "that during the early hours of Sunday morning at least one or two meteors per minute might have been counted by observers who divided up the heavens so as to cover all the constellations. It is also probable that the trails would have averaged five to ten seconds in duration and possibly more." The professor was very much disappointed with the unfavorable conditions, since it has been his ambition ever since taking up astronomy to make particular observations of this phenomena which occurs once in thirty-three years.

HON. W. G. WHEELER.

The suggestion of The Milwaukee Evening Wisconsin that Hon. William G. Wheeler is an excellent man for the position of speaker of the assembly is a pertinent one, and will be warmly seconded. Mr. Wheeler was one of the leaders of the legislature during the last session, and his work attracted much attention. That he would make an excellent presiding officer goes without saying. He has, as The Wisconsin suggests, "judgment, experience, and a wide acquaintance." With William G. Wheeler in the chair, the business of the people would be expedited, and the party saved from many of the mistakes that usually go with so large a partisan majority on the floor.

Yes, William G. Wheeler is just the man for the place, and his election would be an honor to the state as well as to Rock county, and "the gentleman from Janesville."

Frederick Trevor, a surgeon of considerable eminence, has a letter in the current issue of the London Lancet, in which he considers the human stomach not up to date. Trevor, having studied the matter carefully, thinks stomachs are too large, and favors "the removal of a considerable portion of them." Experience, he says, has shown him that such an operation would insure greater comfort to everybody. Probably the good doctor would feel better if he reduced his stomach. That is doubtless what ails him.

The men of Kentucky are up in arms, and tobacco growers, tobacco merchants and tobacco users are to be united in the fight on the combination of plug manufacturers. Another big meeting was held at Frankfort yesterday, and arrangements were made for a state convention on December 5, at which the whole state is to be organized, and steps taken to extend the fight.

Manager P. L. Myers, of the Myers Grand Opera house, is working hard to give Janesville the best theatrical entertainments to be secured. Janesville people should appreciate this fact and give Mr. Myers all the encouragement possible.

The first prize money paid to an American sailor was handed to Captain Sigsbee—\$975. As Sigsbee's ship was the first target for Spanish treachery, it is appropriate that he should receive the first financial reward.

And now it is announced that the W. C. T. U. will give up the fight to keep the handsome "Women's Temple" in Chicago. The building is likely to be sold to a brewing company, it is said.

Friends of Each Are Urging Upon the Governor—Gilson and Dodge Are Still Supposed to Be Leading—Judge Timlin in the Field.

Madison, Wis., Nov. 16.—[Special]—The Governor is still considering the matter of successor to Justice Pinney on the Supreme court. Delegations have visited him urging the claims of Judge Charles M. Webb, of Waupaca, and William H. Timlin, of Milwaukee. Nevertheless, it seems probable that the Governor's choice will fall upon either Judge Gilson, of Fond du Lac, or J. E. Dodge, of Racine, both of whom have strong backing. It is not yet known how soon an appointment will be made, but it is expected near the close of the week.

Will Tax Church Property.
Montreal, Que., Nov. 16.—Mayor Raymond Prefontaine of this city, a French-Canadian Catholic and a liberal member of the dominion parliament, has made up his mind that the Catholic churches and religious institutions must pay taxes the same as other private property holders and corporations. Up to this time they have been exempt, but the city needs money and the mayor has decided upon this means of filling the treasury.

TALKED BUSINESS IN THE GLOAMING

TWILIGHT CLUB HOLDS AN INTERESTING SESSION.

Discuss the Question of How the Material Interests of the City May Be Improved—Manufactures Are Praised and Educational Advantages Advocated At Length.

The regular meeting of the Twilight club last evening had for discussion the ways in which Janesville can secure the greatest benefits from anticipated improvements in business. There was a large attendance of members, and a large number of guests from other cities were present.

W. A. Jackson was the leader of the evening, and called upon Judge M. P. Richardson. That gentleman said that in no better way could progress be shown than in the banking business where every cent was accounted for. In 1892, when Janesville had but three banks, the loans and discounts amounted to \$1,102,000, and deposits to \$1,081,000. In 1898, which included November and December of 1897 and ten months of 1898, the loans and discounts were \$1,280,000 and the deposits \$1,419,000. He also made some comparisons regarding the tobacco business which employs the greatest amount of labor of any industry. The Janesville Machine Company has a pay roll of nearly \$100,000. The dry goods business had been as large as any other year, while groceries, boots and shoes, jewelry, etc., were not so large as in years past when all of the factories were running. Very few houses were now vacant, while in 1897 many were vacant. In the matter of public schools there was a large gain. In 1886 the High school enrollment was 96; in 1898 it was 414. The cost per pupil was the smallest of any of the size in the state, it being about \$17 per pupil. Mr. Richardson spoke at some length on the tobacco question and quoted from an article written by Frank Wiley, of the Farm and Home.

Something About Tobacco.

M. G. Jeffris was called upon to speak upon the importance of the tobacco crop of this region to Janesville. He said he was a poor man to talk about tobacco as he had just learned to smoke. The tobacco industry was one that should be taken into consideration. He placed the estimate of the business in Janesville at from \$600,000 to \$700,000 per year. He claimed that Edgerton bought half as much again as Janesville. Janesville, he said, had about twenty-five dealers, but this statement was contradicted by an article in the Tobacco Leaf which showed thirty-three. Edgerton had over forty. Nearly every town had tobacco buyers, and business men of Janesville ought to do something to increase the tobacco business in this city. He did not think the local buyers would object to additional buyers. Other dealers should be induced to come here. There was talk of an independent warehouse and he favored such a move. There would be trouble in handling the crop of '98 because of the amount of the crop of '97 still on hand. He favored the reorganization of a business men's association. The old one had more than paid for itself. He would rather have ten factories employing twenty men each than one employing two hundred. The feeling that no factory was wanted unless it comes on my land should be done away with. The feeling should be, come, no matter where you locate.

Goods of the City.

George G. Sutherland took under consideration "The Needs of the City and How Best to Attain Them." The important question was, what can we offer? What rate of taxation? We have low insurance and surplus capital with low rate of interest; good transportation facilities. The taxes in Janesville were pretty high. He had visited the factories in the east, and found a lower rate of interest, and more skillful help which were material advantage. In the south the taxes were much lower. In Alabama the cotton factories were all exempt from taxation for ten years by law. They got their help sixty per cent. less and equally efficient with northern help; it was all white and the same character as ours and more steady. They required less for subsistence, for fuel and clothing. Transportation did not cut so much figure as many thought. The taxes in Chicago were much less than in Janesville. We should aim to get factories that do not make bulky goods or the freight will be large in bringing the material and carrying the goods when made. We have a rich surrounding country and if we cared to utilize the advantages we have we could compete with any city.

Manufactures

J. A. Craig spoke on the general subject of manufactures. He said the Janesville Machine Company had now more business than they could do in ninety days or perhaps by spring. The products go to the Mississippi valley. A great help to their prosperity had been the plow department started two years ago. Janesville had been placed on equal freight rates with Chicago, a privilege that only Milwaukee, Racine and Rockford enjoyed. The number of factories was what helped a city out. They had frequent letters from cities where they had distributing points to make their headquarters there and make an outlay in the way of buildings and improvements. Most of these places had business men's associations. The Janesville plant had only shut down three days the past year to take inventory.

Waste Products.

T. O. Howe discussed the waste of the city. He said there is a big waste pit that should be filled with raw mate-

rial. People go to Chicago, buy goods and pay more than they could get the same article for from the home dealer. They waste their time which should be put in improving their business, and by so doing contribute their share of raw material to Janesville's waste pit. There are a few who never do anything to contribute to Janesville's good. They say the city is dead and that everything is overdone. If a man does anything to benefit the town they say he did it to get a free pass on the railroad or had some object. We can make our city prosperous by working up the raw material that is placed before us. We want good men to work over raw material. We are all anxious to see our population 25,000. Let us first make what we have prosperous.

George S. Parker spoke of the advantages of schools to a town.

Schools As An Attraction.

Superintendent Mayne said that if Janesville was made an educational center business would come here. Five families had moved into Janesville this year for the purpose of educating their children. Sixty-nine pupils were attending the schools from out of town. Farmers would come here to trade when they came after their children to take them home. It would not take any effort to double up the paying pupils from out of town if there was room for them. He had talked with a gentleman from Beloit not long ago and had asked him "What's the matter with Janesville?" He said there was too many cliques; one wanted one thing and some one else was opposed to it. There were too many citizens who had nothing else to do but sit around and find fault. The best city was one where all had work to do and attended to it all the time.

Hustling Pays.

R. M. Bostwick thought every merchant must be up and doing and pay strict attention to details. If he has not the time to devote to it he should hire a man. The store should present a neat appearance and the goods be displayed before the people. Goods kept on the shelves would never sell. The merchant should be honorable in his dealings and treat customers so that they will return; be particular in the selection of his clerks; be liberal in the way of donations for public enterprises. Trade cannot be improved by being air tight. Many dealers are behind the times. Some people spend \$500 in Chicago to \$50 in Janesville.

Horace McElroy made a few facetious remarks, concluding with a poem the point of which lay in the moral. Frank C. Husekton reviewed the work done by the Business Men's Association. T. S. Nolan read what purported to be a letter from John Hamilton; C. C. Russell discussed the importance of grain buying; and after some further desultory talk the chair was instructed to appoint a committee of three to examine into the matter of the grain market in this and other places and report at the next meeting.

MARRIED LIFE WAS VERY BRIEF

EMMA C. BROWN WANTS DIVORCE FROM HUSBAND.

They Were Married in 1889, But Lived Together Only Three Days—The Disconsolate Wife Knows No Cause Why She Should Be Deserted.

Emma C. Brown, of the town of Lima, was an applicant in the circuit court today for a divorce from her husband, James J. Brown.

The couple were married, the plaintiff alleges, in 1889, and lived together for three days, when James deserted and deserted her, since which time he has neglected to provide for her wants or to favor her with his society. She has ever since pined for his home-coming, but in vain. No truant husband has gladdened her eyes.

Where the truant is the complaining wife is unable to say. All that she knows is that during the brief time in which they were together she conducted herself as a dutiful wife should, giving him no cause for forsaking her. She waited patiently and expectantly for his return, but as the years passed hope took its flight and she settled down into a condition of grass widowhood from which there was no release.

The court will grant a legal separation.

TRAVELING MEN'S MEETING

Next Sunday's Gathering Promises to Be of Exceptional Interest.

Next Sunday afternoon at 3 o'clock a meeting expressly for the commercial travelers of this section will be held at the Y. M. C. A. auditorium. An excellent program will be presented, including music by the Y. M. C. A. band, a male quartet, and Col. E. O. Kimberley. Short addresses will be delivered by traveling men, and Fred Terry, of Milwaukee, will speak upon a topic of special interest to the knights of the grip.

The meeting of last year upon which this is designed to be an improvement, was one of the most successful ever held in the state, some four hundred traveling men being present. The occasion this year will doubtless be full of interest, and largely attended.

SHOT HERSELF OVER FAMILY TROUBLES

MRS. CHARLES HUEBEL IS A SUICIDE.

Committed the Terrible Act While Visiting Relatives At Watertown—Family Trouble No Doubt Drove Her To It—Resided in Spring Brook Addition.

Mrs. Charles Huebel, who resides in this city at the corner of McKee boulevard and Robinson street, shot herself at Watertown, Wis., this morning. The extent of her injuries is such that her death is expected at any moment.

Constant brooding over family troubles, together with illness, drove her to take her own life.

Marshal Herman Black, of Watertown, telephoned the sad news to Sheriff Acheson, who in turn notified the unfortunate woman's husband.

Neighbors say that the Huebel family have been anything but happy, and they blame the husband, saying that he has driven his wife to her desperate act by cruel treatment.

Mrs. Huebel is a handsome and well educated German woman, and was married when but seventeen years of age, she being her husband's second wife. They have three children.

Huebel is night watchman at the Janesville Machine Works. Mrs. Huebel has a sister in this city, and for the past two months she has been the guest of relatives in Watertown, where she went to rest from the effects of an operation performed at Chicago. At one time she made application to Attorney Angie King for a divorce, but her husband promised to reform, and she let the matter drop.

ASTONISHING CURE.

Serious Condition Caused by Bad Blood.

A Little Connecticut Girl Whose Hands Had To Be Tied.

Cured by Dr. Greene's Nervura After Doctors Had Failed.

It is pitiable to see innocent little children suffer from weakness, nervousness and ill health. Thousands of boys and girls are kept back by delicate constitutions caused by weak nerves and impure blood. In aggravated cases there are eruptions and sores of various kinds. Such children should be given that greatest of children's medicines, Dr. Greene's Nervura blood and nerve remedy. Now is the best time to cure them, to make them well and strong. A notable case is described by Mrs. M. O'Brien, 27 Vine Street, Ansonia, Conn., who says:

"My little daughter, Ethel, was very sick and her appetite was very bad. She was so weak and delicate and her blood was in such a terrible condition that sores broke out all over her. They came out in water blisters and would turn into scabs with corruption, and would itch so that I had to keep her hands tied up for over three months, and could not put her shoes on. She was in this bad condition for over six months, and got no relief from our doctor's medicine. I saw Dr. Greene's Nervura blood and nerve remedy advertised, and thought I would try it. After using it one week my little girl got her appetite back and seemed so much better, and in five weeks she was entirely cured, and is now strong and healthy, thanks to Dr. Greene's wonderful Nervura. I would advise mothers to use it for their children, no matter what their disease. I have also used Dr. Greene's Nervura myself for dyspepsia, and found great benefit. I think it is a grand medicine, and shall always keep a bottle in the house, and have recommended it to all the neighbors and to my friends."

In case of doubt or uncertainty call upon Dr. Greene, or write to him at his office, 148 State Street, Chicago, Ill. Consultation is free.

THE TEMPLE IS ABANDONED.

Trust Bonds Repudiated by National W. C. T. U.

THE BITTER CONTEST ENDED.

Mrs. Carse Will Appeal to All State Unions for Money—Mrs. Lillian M. N. Stevens of Maine Elected National President of the Union.

St. Paul, Minn., Nov. 16.—Repudiation of the temple trust bonds by the National W. C. T. U. convention was followed Tuesday by the launching of the Frances E. Willard memorial fund by Mrs. Matilda B. Carse, president of the temple board of trustees. An appeal for money will be made to all state unions, with the promise that when the building is paid for there will be an income from rentals.

This was Mrs. Carse's last cry to the convention after a resolution recognizing the \$300,000 worth of temple trust bonds as a moral obligation had been introduced by Mrs. Dunham of Iowa and lost by a vote of 78 to 267. When the vote was known Mrs. Carse sprang to the floor with "I am weeping tears of blood at this disgrace which has fallen upon you. I shall never talk to another national convention until the temple debt is cleared and that beautiful building stands as a memorial to Frances E. Willard."

The following officers were elected: National president, Mrs. Lillian M. N. Stevens of Maine. Vice-president at large, Mrs. Anna Gordon of Wisconsin. Corresponding secretary, Mrs. S. M. D. Fry of Illinois. Recording secretary, Mrs. Clara Hoffman of Missouri. Assistant recording secretary, Mrs. Frances E. Beauchamp of Kentucky. Treasurer, Mrs. Helen M. Barker of Illinois.

Knights of Labor in Session. Chicago, Nov. 16.—The twenty-second annual assembly of the Knights of Labor convened at 10 o'clock yesterday morning in Odd Fellows' hall. In his annual report, after reviewing the work of the order for the year, the grand master workman, Henry A. Hicks, said: "No part of the territory where our nation's blood was lost or the flag raised should under any pretext be returned to Spain. Let us make them all free and independent, with proper treaties with us as a nation."

Krag-Jorgensen for All. Washington, Nov. 16.—Secretary Alger, after a conference with Adj. Gen. Corbin and Maj. Shaler of the ordnance bureau, decided that the United States armories had progressed with the manufacture of Krag-Jorgensen rifles to a point where he could undertake to furnish the entire army with this weapon. As fast as the small-bore rifles can be packed and sent forward, the Springfield in the hands of the soldiers will be returned and turned in to the armories.

Three to two. Favorite Base Burners have three hot air flues. Other stoves have but two. Never noticed the flues? Most people haven't.

Flues carry the heat from the fire pot around the stove. In a three-flue stove (the Favorite) two flues carry the heat down the outer edges of back and around the extreme outer edges of base to the front of the stove. Here they unite and return across the center of base and up the center of back.

Three flues on the back of stove, three flues on the base of stove.

Every inch of the stove a positive heating surface.

A two-flue stove has but one flue down and one flue up.

The three-flue arrangement spreads the heat to the extreme outer surfaces of the back and of the base.

The more heating surface you have the less coal you waste.

AFRAID OF GREAT BRITAIN.

Spain Is Now Desirous of Speedy Peace.

ALL HER HOPES ARE VAIN.

Spanish Statesmen Believe the Strengthening of the British Fleet at Gibraltar Is Meant as a Covert Threat—Plans of Don Carlos May Fail.

Berlin, Nov. 16.—A dispatch to the Cologne Gazette from Madrid says that, according to trustworthy information from London, Lord Salisbury is disposed to act in concert with the United States and that the reinforcements which are being sent to Gibraltar make the British policy seem suspicious.

It is quite generally the opinion in Spain, the Cologne Gazette correspondent says, that, for this reason, the government ought to make peace with the Americans forthwith, before Great Britain has an opportunity to put her finger in the pie.

In explanation of the dispatch to the Cologne Gazette, it should be remembered that Spain has at Ceuta, across from Gibraltar, a fortified post, the possession of which would greatly strengthen Great Britain's control of the entrance to the Mediterranean. It has frequently been reported that Spain would cede Ceuta to France or Germany in order to save it from Great Britain.

Visayas Revolt Is Spreading.

Madrid, Nov. 16.—Gen. Rios, governor of the Visayas islands and acting captain general of the Philippines, has telegraphed to the government that the insurrection is rapidly spreading in the Visayas.

Its increase is so great that he considers it prudent to maintain a purely defensive attitude, instead of assuming the aggressive, with the result of shedding more Spanish blood. Gen. Rios gives a still graver aspect to the situation, the circumstances of which are not made public by the government.

The opinion of the ministers is divided, although a majority of the members of the cabinet are really anxious that the affairs with which the Paris commissioners are concerned shall end quickly. In the meantime the government has telegraphed to Gen. Rios, instructing him to endeavor by all possible means to quell the rebellion.

The queen regent is dismayed at seeing the turn events have taken, and public opinion is manifestly in favor of a speedy termination of the Paris negotiations.

The Correo, in an article on the peace negotiations, admits that there is little hope of Germany's opposing the pretensions of the United States, and considers the ideas inspired by the promised call of Emperor William at certain Spanish ports to be altogether illusory. The Correo connects the mobilization of the British reserve squadron with the Philippine question, and says it is Great Britain's intention to support the American demands.

The Imperial, commenting on the report that Don Carlos has raised a large loan in London, declares that the British are aiming to create disorders so as to enable them to extend their possessions from Gibraltar by tactics similar to those employed by the Americans in Cuba.

A leading Carlist predicts that there will be a formidable rising within a month of the signing of the treaty of peace. He says everything is ready and that the Carlists have an abundance of money in Paris and elsewhere. A high official of the ministry of war says that the government is aware of the activity of the Carlists, and is ready for them. Disinterested observers believe Don Carlos is mistaken in building on an explosion of popular indignation following the signing of the treaty of peace. The people are apathetic. So far as public opinion exists outside of professional political circles it seems to favor peace on any terms.

Washington, Nov. 16.—Some definite results are expected by the state department.

A PECULIAR REMEDY.
Something About the New Discovery for Curing Dyspepsia.

The Rev. F. I. Bell, a highly esteemed minister residing in Weedsport, Cayuga Co., N. Y., in a recent letter writes as follows: "There has never been anything that I have taken that has relieved the Dyspepsia from which I suffered for ten years except the new remedy called Stuart's Dyspepsia Tablets. Since taking them I have had no distress at all after eating and again after long years CAN SLEEP WELL. Rev. F. I. Bell Weedsport, N. Y., formerly Idaho, Colo."

Stuart's Dyspepsia Tablets is a remarkable remedy, not only because it is a certain cure for all forms of indigestion, but because it seems to act as thoroughly in old chronic cases of Dyspepsia as well as in mild attacks of indigestion or biliousness. A person has dyspepsia simply because the stomach is overworked, all it wants is a harmless, vegetable remedy to digest the food and thus give it the much needed rest.

This is the secret of the success of this peculiar remedy. No matter how weak or how much disordered the digestion may be, Stuart's Dyspepsia Tablets will digest the food whether the stomach works or not. New life and energy is given not only to the stomach but to every organ and nerve in the body. A trial of this splendid medicine will convince the most skeptical that Dyspepsia and all stomach troubles can be cured. The tablets are prepared by the F. A. Stuart Co., of Marshall, Mich., but so popular has the remedy become that Stuart's Dyspepsia Tablets can now be obtained at any drug store at 50 cents per package. Send for look on stomach diseases free.

partment officials from the meeting of the peace commissioners today, but the meeting is looked forward to with much anxiety on account of a fear of break in the negotiations. If the Spanish commissioners do not indicate a desire to get down to business at the session today notice may be served upon them that at the next meeting they will be expected to agree to a treaty or stand the consequences.

Will Not Sign a Treaty.
Madrid, Nov. 16.—According to semi-official statements here the Spanish peace commissioners will maintain their present attitude in regard to the Philippine islands and will certainly not accept the conditions of the United States. Further, if the discussion does not return to the limits of the protocol, as viewed by the Spaniards, the Spanish commissioners have decided, in spite of contrary reports, not to sign a treaty of peace.

Spanish Forts Being Manned.
London, Nov. 16.—The Daily Graphic says: "The Spanish transatlantic fleet has been ordered to be prepared for a renewal of hostilities, and the forts in the Canary islands are being rapidly manned."

Expect the American Fleet.
London, Nov. 16.—The rumors circulated here that the American fleet was on the point of starting for Europe caused great excitement in commercial circles.

FOUGHT FOR HALF AN HOUR.

Three Bandits Killed and Four Wounded at Chelsea, L. T.—Three Officers Shot.

Wichita, Kas., Nov. 16.—Three dead and four wounded Indian outlaws lay in the back room of the Chelsea national bank at Chelsea, Ind. T., Tuesday night, the victims of a desperate battle fought on the main streets of that town early in the morning with deputy marshals. Two deputy marshals and one citizen lie at the house of neighbors seriously wounded. The dead are:

ZIP WILLIAMS.
J. HARRY WILLIAMS.
JOHN GOURD, all outlaws.
The wounded are:
Cook Still, outlaw; shot through the right shoulder.
Sam Sixkiller, outlaw; shot in the leg.

Harry King, outlaw; shot through both arms.

Red Bird, full-blooded Creek Indian; shot in breast; will die.
Deputy Marshals Hendrix and James were both shot in the breast, and Will Parker, a citizen, was hit in the arm by a stray bullet.

The battle commenced at daylight, when the train came in, and lasted for half an hour. The outlaws came into Chelsea about 4 o'clock in the morning, intending to rob the bank before anyone was awake, and then hold up the passenger train which arrives at Chelsea about daylight. Their plans to rob the bank carried, but when they rode over to stop the passenger train the outlaws were met with a heavy fire from the officers aboard the train.

About 3 o'clock the night operator at the Frisco depot was suddenly startled by some one thrusting a gun in at the window and commanding him to hold up his hands. He was looking into a rifle barrel in the hands of Sixkiller, a big full-blooded Indian. The Indian crawled in the window, and, assisted by the two others, tied the operator's hands and feet. They then left, telling him not to attempt to move if he valued his life. The operator's wife, Mrs. Gibbs, heard the noise and came down and released her husband long enough to send a message to Vinita notifying the officers to come on the next train. His quick-witted wife then tied him again and went back upstairs.

Chelsea is a town of about 1,000 inhabitants. The bank is about a block from the depot. The outlaws proceeded to the bank and successfully blew open the safe and secured nearly \$5,000 in cash. They muffled the safe and windows and no one heard the explosion. If they did, no one appeared on the scene. The Williams gang were all well known in Chelsea, and the inhabitants knew it meant death to attempt to stop them.

The outlaws then came to the depot, saw that Operator Gibbs was still bound, and they then sat down on the platform to wait for the passenger train. Their ponies were turned loose on the vacant lot before the depot. When the train came in the two Williams boys and John Gourd jumped on the first passenger coach and started through, while the others tackled the express car. A deputy marshal and a posse of eight men were in the smoker and opened fire, killing the three outlaws, who came into the coach before the outlaws had a chance to fire one shot.

The others in front knew what had happened and started toward their ponies. All the marshals remained on the coach except Hendrix and James, who jumped out and started to follow. The four outlaws took refuge behind their ponies, and the battle waged for half an hour. Finally all of the outlaws were so badly injured that they were forced to surrender. Parker, a passenger on the train, was shot in the arm. He was hiding under a seat, and raised his arm above the window when a bullet crashed through the glass, hitting him. Nearly every glass in the car windows was shattered.

The killing and wounding of the Williams gang completes the destruction of the last gang of outlaws that have terrorized the territory for the last quarter of a century.

STRIKE IS AT AN END.

Virden Operators and Employees Decide to Resume Operations.

Chicago, Nov. 16.—An official settlement of the Virden coal miners' strike was made Tuesday afternoon at a conference between representatives of the opposing sides. It was announced that the mines would resume operation tomorrow or next day.

The company agrees to pay 40 cents a ton for pick mining and 30 cents a ton for machine mining. It also agrees to take down the fence, which became famous during the strike as a stockade. No information was given out regarding the future of the men who were engaged during the time of the strike and

who are still with the company, but it is believed they will either be taken into the organization or sent to the places from which they came.

Textile Workers May Strike.

New York, Nov. 16.—The general executive council of the National Union of Textile Workers of America met here and discussed the advisability of making a demand for fewer hours of work and higher wages all over the country. The union, it is said, may soon have a fight upon its hands in the south, where the wages of employees have already been reduced. A member of the executive committee was directed to confer with the local leaders in Augusta, Ga., where trouble is expected in the mills. The council is

sued a statement calling the attention of manufacturers to probable danger to the cotton industry of this country in the event of the annexation of the Philippines. The council said that if foreign capital builds factories there the southern manufacturers will suffer greatly.

To Revive Steel Rail Pool.

Pittsburgh, Pa., Nov. 16.—An important meeting has been called for the near future of the steel rail manufacturers of this city and surrounding sections. The purpose is to attempt to revive the old steel rail pool which existed throughout the country for many years, and which was disbanded about a year ago.

BACKACHE.

Mrs. Pinkham speaks earnestly to women suffering from this discouraging complaint.

Backache is one of the most common of woman's troubles and one of the most wearing.

It is not an acute pain, but a most distressing, wearying sensation, making work almost impossible and indicating disease of the feminine organs.

A common mistake is to treat backache in women with local external applications, calling it "a little spinal irritation" or a "touch of rheumatism."

Do not be deceived; your backache means serious trouble for you unless the cause of it is removed.

All uterine and ovarian difficulties are relieved by Lydia E. Pinkham's Vegetable Compound. Such relief progresses in almost every case to a complete cure. With relief of these troubles backache disappears.

Mrs. M. E. MULLER, 16 Franklin St., Providence, R. I., writes:

DEAR MRS. PINKHAM:—I have been using Lydia E. Pinkham's Vegetable Compound for backache. The pain was something dreadful; at times I could not walk straight. Now I am all right and enjoy good health. I feel like a new woman. You do not know how thankful I am that I have got my health back, and I have you to thank for it. Your medicine is the best that I have ever used. I advise all ladies to try it, and I am sure it will give unbounded satisfaction. I will recommend it to every friend I have.

Miss LIZZIE KOELLA, 529 Tecumseh St., Toledo, Ohio, writes:

DEAR MRS. PINKHAM:—I cannot praise your Vegetable Compound enough. For about a year I was sick with the backache. I could not work, could not sleep at night, and did not care to live. About two months ago I saw your advertisement in a paper, and thought I would try your Compound. To-day I feel like a new person. I am just enjoying health; never felt so good in my life. I have recommended your Vegetable Compound to many of my friends, who are now using it, and think it is just splendid.

A woman of experience in these matters understands women, and Mrs. Pinkham of Lynn, Mass., has a wider experience than any physician, male or female. She offers you her counsel free of charge, and it is a friendly, sympathetic counsel. No man sees your letter or its answer at any time, and to secure the best advice it is necessary that you should be perfectly frank, this you can be to one of your own sex.

WINE OF CARDUI

How a Woman Suffers.

HOWELL, IND., Nov. 26.
I will always praise Wine of Cardui. It has done me more good than all the medicines I have ever taken in my life. Please send a book about female diseases to the ladies whose names I enclose.

Mrs. MINNIE STODGHILL.

WINE OF CARDUI

It isn't necessary for a woman to give particulars. When she says she has "female troubles", other women know what that means. It means days and nights of endless suffering. It means headaches which no tongue can describe. It means that terrible bearing and dragging down in the lower abdomen. It means agonizing backache, and shoulder ache, and arm ache, and aches in the lower limbs. It means nerves on edge—the blues—despondency and loss of hope. It means debilitating drains that the doctors call leucorrhoea. It means martyrdom—sometimes even death seems preferable. And still Wine of Cardui will utterly put those diseases and pains to rout. It has cured thousands of cases when nothing else on earth would. To the budding woman, to the bride, to the wife, to the expectant mother, to those going through

Holeproof Sox Need No Darning

A SAVING FOR MEN AND A BLESSING FOR WOMEN.

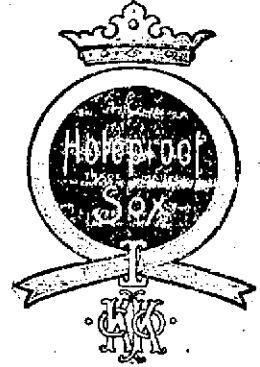

HOLEPROOF SOX are practically a new article on the market. What seemed to be impossible has been made possible. The problem that has vexed many sock makers has finally been solved after years of patient effort by the manufacturers of HOLEPROOF SOX. You cannot wear a hole in these Sox with ordinary use. The sanitary properties insure absolute antiseptic qualities. Constant wear of ordinary sox causes excessive heat to the feet. HOLEPROOF SOX avoid this. Each washing makes them softer and the most sensitive feet have entire comfort in their use.

A Guarantee:

Four pairs of these Sox will need no darning for six months if worn alternately. We positively guarantee this point.

Holeproof Sox

Seem to cost 50 cents a pair, when, as a matter of fact, they really cost only 8 cents a pair. Don't you see? They outwear six ordinary pairs. Now, six ordinary pairs cost \$1.50, while one pair of HOLEPROOF SOX costs 50 cents. 1-6 of \$1.50—25 cents. 1-6 of 50 cents—8 1/3 cents. Quite a saving, isn't it? And there's more saved than money—there's time, trouble, temper. HOLEPROOF SOX come in four colors: black, light tan, dark tan and natural grey.
